# Heavy Pattern Angle Sill Faucets

*C-135/C-235*

*C-137/C-237 Styles*

Application

PRIER Heavy Pattern Angle Sill Faucets are designed for areas that require water service, but are not subject to freezing temperatures. Typical installations include basements, garages and for outdoor installations in mild climates. The heavy pattern design with solid brass stem assures years of reliable service with minimal maintenance.

Features

- Heavy pattern cast brass construction
- Solid cast brass mounting flange
- Available either satin nickel plated or polished chrome finish
- Solid brass operating stem
- Cast aluminum handle assembly with stainless steel mounting screw
- AFG teflon with graphite packing
- Female iron pipe inlet connections, sweat connection on C-137
- 3/4" garden hose connection outlet
- Solid brass stem with ACME threads and 1/4" L bibb washer

Ordering

*\*C-137 not available in polished chrome finish*
