## 500 Series Freezeless Wall Hydrant

Application

### Mansfield Style M-500

- Residential
- Freezeless
- Anti-Siphon
- Backflow Check Valve

The Mansfield 500 Series provides a year round source of water to areas of structures that are subject to freezing temperatures. The hydrant valve is connected to the supply piping in the heated portion of the structure, eliminating the possibility of freezing.

The Mansfield 500 Series has all the characteristics of the proven 300 Series Wall Hydrant, with the added protection of a vacuum breaker and backflow preventor.

**\*\*\*The Mansfield 500 Series Wall Hydrant is now retired and is no longer available. Parts for this hydrant are still available. For a like model freezeless, anti-siphon hydrant see the new style 400 Series Half-Turn Wall Hydrant.\*\*\***

Features

- ASSE 1019 and UPC Approved
- Integral cast backflange
- Wide screwholes easily secure mounting screws
- Solid brass body and seat
- Self draining
- Easy to install and operate
- Integral backflow preventer and vacuum breaker for double protection
- Field repairable with no special tools
