P-164/264 Series Freezeless Wall Hydrant

**Quarter Turn with Soft Grip Handle**

- Residential
- Freezeless
- Anti-Siphon
- Backflow Check Valve

PRIER P-164 provides a year round source of water to areas of structures that are subject to freezing temperatures. The hydrant valve is connected to the supply piping in the heated portion of the structure, eliminating the possibility of freezing. The P-164 has the added benefit of an easy operation quarter turn that features a proven compression type seal. Additionally, the P-164 features a soft grip operating handle for easy operation in wet conditions and cold weather.

Ordering the P-264 gives you the same style hydrant but with a vandal proof extended lockshield and operating key. It is available from stock in lengths from close coupled to 24”, longer sizes are available on request.

**Features**
- ASSE 1019 and C-UPC approved
- Quarter-turn soft-grip coated cast aluminum handle
- Anti-siphon vacuum breaker with backflow check valve
- Aluminum vacuum breaker cap with increased durability
- Integral cast flange with built-in drainage pitch
- Enclosed screw holes easily secure mounting screws
- Solid brass body, valve stem cap, seat and stem ends
- Satin nickel plated body maintains attractive finish
- Stainless steel seat washer screw and handle screw
- Durable ACME threads secure stem at seat end
- Lock shield cap for stronger valve design
- AFG teflon with graphite packing for easy maintenance
- Standard “OO” size seat washer
- Spout aligning mark
- Slim seat inlet for easier installation

**Inlet Styles**

**For the old style P-164 Series wall hydrant stems, see P-164 Series retired style spec sheet at www.PRIER.com. PRIER universal stems are replacement stems for any size from close coupled to 14." They require cutting the rod to proper length and soldering the brass stem end to the rod as directed in instructions.**
