Anti-Siphon Brass Ballcock

Mansfield Style 07 Series

Features

The 07 Ballcock, the industry's finest, is efficient, dependable, quiet and provides features found in no other Ballcock. With its specially designed silencer and bottom outlet the 07 operates virtually noiselessly. It's quick, snap action shutoff eliminates whine and whistle. Its hush tube prevents chatter. The 07 operates equally well at high or low pressures and adjusts easily to control water refill for both tank and bowl. For dependability, the seat disc is constructed of long-life Celcon. For simple serviceability, all internal parts are easily accessible. The 07 meets all code requirements and it is anti-siphon, preventing the tank water from being siphoned back into the water supply.
