

Build With Purpose

400 Series Freezeless Wall Hydrant

DIAMOND
Series

Mansfield Style M-400

PRIER 400 Series provides a year round source of water in areas that are subject to freezing temperatures. The hydrant valve is connected to the supply piping in the heated portion of the structure, eliminating the possibility of freezing. The PRIER 400 Series features a half-turn design for years of easy operation.

The PRIER 400 Series has all the characteristics of the proven 300 Series Wall Hydrant, with the added protection of a vacuum breaker and backflow preventer. It is available from stock in lengths close coupled to 14".

- Residential
- Freezeless
- Anti-Siphon
- Backflow Check Valve

FEATURES

- Easy half-turn operation
- Integral cast flange with built-in drainage pitch
- Wide screw holes easily secure mounting screws
- Solid brass body and seat
- Per ASSE 1019, pressure rated to 125 PSI, temperature to 140°
- Satin nickel plated body maintains attractive finish
- Stainless steel & brass screws
- Easy grip polycarbonate operating handle
- EPDM backflow preventer
- EPDM packing for easy maintenance
- Each valve air-tested at factory for leak-free quality
- Spout aligning mark with manufacturer's date code
